Re: PaleoJoe's Dinosaur Day at Neville Public Museum

Green Bay, WI—Joseph "PaleoJoe" Kchodl will present Dinosaur Day: Trilobites, Dinosaurs and other Prehistoric Creatures on May 2 at 7pm and on May 3 at 10am at the Neville Public Museum. This is a free event.

Join PaleoJoe as he describes how fossils are created, the rich fossil heritage of Wisconsin, the Ice Age animals of Wisconsin and, of course, Dinosaurs. Learn how these creatures lived and died in some of the most fossil rich parts of the United States. PaleoJoe addresses the part of a "Digger" and introduces animals, plants, and creatures that have been extinct for millions of years. His high energy program brings life to these creatures of long ago. PaleoJoe will be available before and after the program for a book signing.

The Neville's exhibit, *Trilobite Treasures: Arthropods of the Ancient Seas*, was organized by PaleoJoe and is on display through August 10.

For more information, contact Matt Welter, Curator of Education at (920) 448-7851 or welter_mt@co.brown.wi.us.
