Astronomical League Member Society

MONTHLY MEMBERSHIP MEETINGS

Our monthly meetings are held at the:

Neville Public Museum*

First Wednesday of each month

6:30 pm to 8:30 pm

**All meetings when held at the museum are free and open to the public.*

BENEFITS OF MEMBERSHIP

Access to all NPMAS sponsored events, observatories and star parties,

- ✧ Voting privileges (age 18+)
- ✧ Use of club loaner scopes
- ✧ Use of club library materials
- ✧ 12 issues of the NPMAS newsletter: *The Eyepiece*
- ✧ Access to Member-Only areas on the NPMAS website
- ✧ Membership in the Astronomical League (AL), including four issues of the AL newsletter, *The Reflector*
- ✧ Reduced Subscription rate to *Astronomy* magazine

STAR PARTIES

Star parties are an important part of our club activities - whether club sponsored or other. Members have the opportunity to observe from numerous dark sky sites giving the beginning member a chance to learn the night sky with more experienced observers. Experienced observers have the opportunity to further their own observing skills locating more difficult objects.

PARMENTIER OBSERVATORY

NPMAS Members have access to Parmentier Observatory on scheduled observing nights. Parmentier Observatory houses a 30-inch classical cassegrain telescope with a six-inch Astrophysics refractor, housed in a two story observatory. Properly trained members will be in the dome showing highlights of the night sky.

Members are also welcome and encouraged to set up their own telescopes or binoculars in the field below the observatory. While Parmentier Observatory nights are scheduled dusk to dawn, members are welcome to stay the whole night or just a few hours.

This is a great opportunity for new and experienced members to enjoy the night sky through the largest privately owned observatory in the state or in the field with their own telescope. We hope to see you there.

LOANER TELESCOPE PROGRAM

As an NPMAS member, you are able to use, free of charge, any of our available loaner scopes and accessories. Choices include:

- ✧ 10-inch Dobsonian Reflector
- ✧ 60mm Bushnell Voyager Refractor
- ✧ 8" F10 Celestron Schmidt Cassegrain
- ✧ Meade ETX125 w/ autostar (5-inch Maksutov-Cassegrain, automated)
- ✧ 12" Orion SkyQuest Intelliscope
- ✧ 4" Meade Schmidt Cassegrain

This is the perfect opportunity to become familiar with different telescopes and how each works before deciding to buy one of your own.

2020 CALENDAR OF EVENTS

JANUARY

8 NPMAS Holiday Party—Mackinaw's

FEBRUARY

5 Monthly Meeting—The Sun, Part II
7-9 Camp U-Nah-Li-Ya Winter Weekend

MARCH

4 Monthly Meeting—Active Galactic Nuclei
7 Einstein Science Expo—KI Convention Center
21 Messier Marathon
21 Sheboygan Swap-n-Sell

APRIL

1 Monthly Meeting—Introduction to Astrophotography
4 Public Observing—Bay Beach Wildlife Sanctuary
