Green Bay, WI---April 13, 2015---A new exhibit, *Building our Community: 100+ Years of Architecture and Design in Brown County*, will open at the Neville Public Museum on April 18, 2015.

Established in Green Bay in 1898, Berners-Schober Associates has accumulated an archive of several thousand buildings, including some of the most recognizable landmarks throughout Brown County. This exhibit will feature the plans, drawings and photographs of the buildings that have shaped the neighborhoods we see today, along with the influential figures behind them and will incorporate a combination of artifacts, building biographies, original drawings, and interactive elements that will enhance the experience for visitors of all ages.

The Neville Public Museum staff worked collaboratively with a team from Berners-Schober to create the exhibit content and design, which will showcase more than 100 buildings in Brown County, covering the firm's major body of work: educational, commercial, municipal, religious, and residential structures.

Building our Community opens on April 18, 2015 and will run through March 13, 2016.
