BRIDGING COMMUNITIES, CONNECTING GENERATIONS

FOR IMMEDIATE RELEASE: Witness the building of a large-scale sculpture of a sea creature!

Green Bay, WI—September 25, 2020— Bring the family and join the FAB COLLAB on Saturday, October 3, 2020 for a live outdoor sculpture build on the grounds of the Neville Public Museum. The Fab Collab (Fabrication Collaboration) will be building a large-scale sculpture of a sea creature!

Sculpture is art but so is the process of developing and creating sculpture. The Fab Collab maximizes on both qualities for an art engagement. Viewers will have the opportunity to watch the artists' work as though they are in the artist's studio. The artists provide demonstrations on carpentry, metal fabrication, textiles, and mixed media assemblage. They are there to work as much as they are there to answer questions and explain their artistic process. Big thank you to The Neville Public Museum Foundation.

The Fab Collab is a group of regional fabricating artists who join forces and collaborate on designing and fabricating sculpture projects such as *Dragon Slayer* and the *Griffin Walker* for the On Broadway igNight Market. <https://www.fabcollab.net/>
