

NEVILLE PUBLIC MUSEUM
OF BROWN COUNTY
BRIDGING COMMUNITIES, CONNECTING GENERATIONS

FOR IMMEDIATE RELEASE:

***Under the Surface: A Photographic Journey of Hope and Healing* exhibition is open!**

Green Bay, WI—February 2, 2021— ***Under the Surface: A Photographic Journey of Hope and Healing*** – Water has the power to heal and restore. This power is on display in an exhibit of images created in a therapeutic program for young people struggling with mental health issues.

The twenty-nine underwater images were taken by clients in a residential treatment program called Northwest Passage, which is based in Webster, Wisconsin. In addition to photographs, students wrote stories and poetry describing their experiences or feelings about the images.

The result is a powerful exhibit on the healing potential of the natural world. This exhibit is on loan from the Wisconsin Sea Grant Institute.

Under the Surface: A Photographic Journey of Hope and Healing will be on display from February 2 through May 23, 2021.
